

Post Primary School Teachers:

Have you been teaching less than five years?

If the answer to the question above is 'YES' then the Professional Development Service for Teachers and your local Education Centre would like to invite you to participate in a new initiative:

The Early Professional Development Project.

We in PDST are aware of the needs of teachers during their first years of teaching (2-5 years) and would like to offer professional development opportunities and support for which are tailored to your early career needs.

A variety of professional issues may be included in this support project, for example: Positive Behaviour Management, Teaching Gifted and Talented Students, Supporting Literacy in your classroom.

If you are interested in getting involved in this exciting initiative in your local Education Centre the application form is available from your principal. Alternatively, you may contact your local Education Centre and register.
